

LANE 2012 - 7th International Conference on Photonic Technologies

Veranstaltung - LANE 2012 - 7th International Conference on Photonic Technologies ☺

Titel	LANE 2012 - 7th International Conference on Photonic Technologies
Wann	Mo, 12. November 2012 - Do, 15. November 2012

Beschreibung

LANE 2012 - 7th International Conference on Photonic Technologies The preliminary Topics are: Laser material processing

- Beam sources & components
- Laser beam welding, brazing & soldering

- Laser beam cutting & drilling
- Surface treatment, forming
- Laser assisted processes

Emerging technologies

- Precision processing with ultrashort laser pulses
- Additive manufacturing
- Simulation & modelling
- Sensing & control

Please find more information by following this link:
