

32nd ASPE Annual Meeting

Veranstaltung - 32nd ASPE Annual Meeting ↗

Titel	32nd ASPE Annual Meeting
Wann	So, 29. Oktober 2017 - Fr, 3. November 2017

Beschreibung

32nd ASPE Annual Meeting

The American Society for Precision Engineering (ASPE) holds its Annual Meeting in the fall of each year.

Topics covered at the Annual Meetings oftentimes include following Topics:

- Applications of Precision Engineering in Manufacturing
- Precision Fabrication and Assembly
- Design of Precision Machines and Instruments
- Control of Precision Machines and Processes
- Machine Tool Metrology
- Dimensional Metrology
- Ultraprecision Machining
- Grinding
- Polishing and Lapping
- Design and Fabrication of Structured Surfaces
- Micro-Electromechanical Devices
- Nanotechnology
- Optics
- Optical Metrology and Interferometry
- Scanning Probe Microscopy
- Surface Metrology
- Novel Equipment and Processes
- Measurement Uncertainty and Biomedical Engineering

The conference offers the latest in precision engineering research through presentations from national and international speakers.
