

9th IEEE Conference on Nanotechnology - Genova

Veranstaltung - 9th IEEE Conference on Nanotechnology - Genova

Titel	9th IEEE Conference on Nanotechnology - Genova
Wann	So, 26. Juli 2009 - Do, 30. Juli 2009

Beschreibung

The 9th IEEE Conference on Nanotechnology

After the successful conferences in the past (since 2001) IEEE NANO 2009 will be hosted for the second time in Europe, in Genoa. The conference aims to bring researchers, industry, workers entrepreneurs and funding agency leaders together, hoping to provide a forum for exchange of ideas, interaction, networking and collaboration for research and development in nanotechnology.

The technical program covers all major topics in Nanotechnology and specifically engineering issues. Topics will include:

- Nanoelectronics
- Nanotools and Nanodevices
- Nanooptics, Nanophotonics and Nanooptoelectronics
- Nanofabrication, Nanomaterials
- Ultra-thin film technologies, Nanolithography
- Fullerenes, Buckytubes, Nanocarbons, Nanodiamonds and related technologies
