

10. Nanofair

Veranstaltung - 10. Nanofair

Titel	10. Nanofair
Wann	Di, 1. Juli 2014 - Do, 3. Juli 2014

Beschreibung

10. Nanofair 2014

Die Zehnte Nanofair - Neue Ideen für die Industrie vom 1.-3. Juli 2014 in Dresden.

Weitere Informationen finden Sie Zeit unter www.nanofair.com .

You are invited to the Nanofair 2014 – one of the most established conferences on nanotechnology in Europe.

**Nanofair 2014, 1st - 3th July 2014,
International Congress Center Dresden, Germany**

Plenary lectures by internationally renowned speakers and contributed oral presentations as well as an exhibition running concurrently to the conference will offer delegates excellent opportunities to become acquainted with the latest developments or research results. A poster session will complement the comprehensive technical program.

The conference will focus on highly topical trends in the field of nanotechnology. Special emphasis will be given to the following topics:

- functional nanocomposites
- nanostructured surfaces
- nanomaterials for life sciences
- nanomaterials for energy applications
- nanoelectronics & photonics
- processing aspects of nanomaterials
- nanoanalytical methods
- carbon nanotubes & graphene

Download the call for papers now at http://www.nanofair.com/en/call_for_papers.html

Abstracts of latest research results could have been submitted until November 30, 2013 to Nanofair@iws.fraunhofer.de

Moreover, we would like to announce that the 2nd Dresden Nanoanalysis Symposium will be held at the Congress Center Dresden on July 2nd and 3th, 2014, and will be jointly organized with the 10th Nanofair. The 2nd Dresden Nanoanalysis Symposium will provide highlights in the field of nanoanalysis, represented by invited talks and poster sessions. For further information please visit the conference website www.nanofair.com. Don't miss this excellent opportunity to meet leading experts from science and industry and to enjoy some exciting days in the beautiful city of Dresden.
