

2nd CPFN - International Conference Challenges and Perspectives of Functional Nanostructures

Veranstaltung - 2nd CPFN - International Conference Challenges and Perspectives of Functional Nanostructures

Titel	2nd CPFN - International Conference Challenges and Perspectives of Functional Nanostructures
Wann	Do, 30. Juli 2015 - Fr, 31. Juli 2015

Beschreibung

2nd CPFN - International Conference Challenges and Perspectives of Functional Nanostructures

The CPFN 2014 conference received great attendance from many parts (<http://www.tu-ilmenau.de/cpfn/>).

This year, we are delighted to announce that a total of about 20 plenary and invited talks will be given by the leading scientists from all over the world.

Some information of the CPFN 2015:

- This conference is supported by the Federal Ministry of Education and Research of Germany (BMBF), our motivation is to bring together leading scientists and researchers in the fields of nanotechnology and energy-related applications to exchange information on their latest research progress and innovation.
- The main topics of the conference include functional nanostructures, surface nanostructuring and nanopatterning, and energy-related device applications.
- Famous professors from both Germany and foreign countries, including Prof. Zhonglin Wang, Prof. Joachim Maier, and Prof. Reginald M. Penner, will present their exciting discoveries and perspectives on the related research areas.

For more information regarding to CPFN 2015, please visit our conference website (<http://www.tu-ilmenau.de/cpfn/>). Posters related to the aforementioned areas are welcome for all participators. Abstract submission to this email address is open now and will be close on July 10th, 2015.

No registration fee will be charged. We are looking forward to your support and participation.
