

OSA 2016 - Laser Congress

Veranstaltung - OSA 2016 - Laser Congress ↗

Titel	OSA 2016 - Laser Congress
Wann	So, 30. Oktober 2016 - Do, 3. November 2016

Beschreibung

OSA 2016 - Laser Congress

This Congress features the latest advances in solid state laser development and related technologies for use in free space laser communication, laser based sensing, numerous industrial applications and will provide attendees with a comprehensive view of the latest technological advances as well as the applications of laser technologies for industrial products and markets.

The OSA Laser Congress will also include market-focused sessions and presentations describing needed technological and engineering advances required to translate these laser technologies into commercial products. Coupling research with product requirements is a new feature of the congress in 2016.

The Congress is composed of the following three complimentary meetings designed to meet the needs of researchers, laser developers, and advanced users of advanced solid state lasers:

In 2016, the conference will offer three collocated meetings:

- Advanced Solid State Lasers Conference (ASSL)
- Application of Lasers for Sensing & Free Space Communication (LS&C)
- Laser Applications Conference (LAC)
