LANE 2018 - 10th Conference on Photonic Technologies

LANE 2018 offers a platform for the international exchange of ideas, opinions, perspectives, results and solutions concerning the application and the potential of photonic technologies.

Especially recent developments in following fields:

- - Laser Material Processing
- - Beam sources & components
- - Laser beam welding, brazing & soldering
- - Laser beam cutting & drilling
- - Surface treatment & forming
- - Laser assisted processes

including

- - Experimental results
- - Simulation & modelling
- - Sensing & control
