

International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023

Veranstaltung - International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023 ∩

Titel	International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023
Wann	So, 21. Mai 2023 - Fr, 26. Mai 2023

Beschreibung

International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023

The International Conference on Metallurgical Coatings and Thin Films (ICMCTF) is a international conference on thin film deposition, characterization, and advanced surface engineering. It provides a forum and networking venue for scientists, engineers, and technologists from academia, government laboratories, and industry.

Attendees from all over the world come to present their findings, exchange ideas, share insights, make new friends, and renew old acquaintances. The Conference typically draws more than 800 attendees, covering more than 50 oral technical sessions and a well-attended Thursday evening poster session.

Technical Symposia

- A. Coatings for Use at High Temperatures
- B. Hard Coatings and Vapor Deposition Technologies
- C. Functional Thin Films and Surfaces
- D. Coatings for Biomedical and Healthcare Applications
- E. Tribology and Mechanical Behavior of Coatings and Engineered Surfaces
- F. New Horizons in Coatings and Thin Films
- G. Surface Engineering – Applied Research and Industrial Applications
- H. Advanced Characterization Techniques for Coatings, Thin Films, and Small Volumes

Topical Symposia

- TS1. Coatings for Energy Storage and Conversion – Batteries and Hydrogen Applications
- TS2. Sustainable Surface Solutions, Materials, Processes, and Applications
- TS3. Processes of Materials for Printed and Flexible Film Technologies_
